

Introducing Thinking Bicycle

Christopher Mark Gore

cgore.com

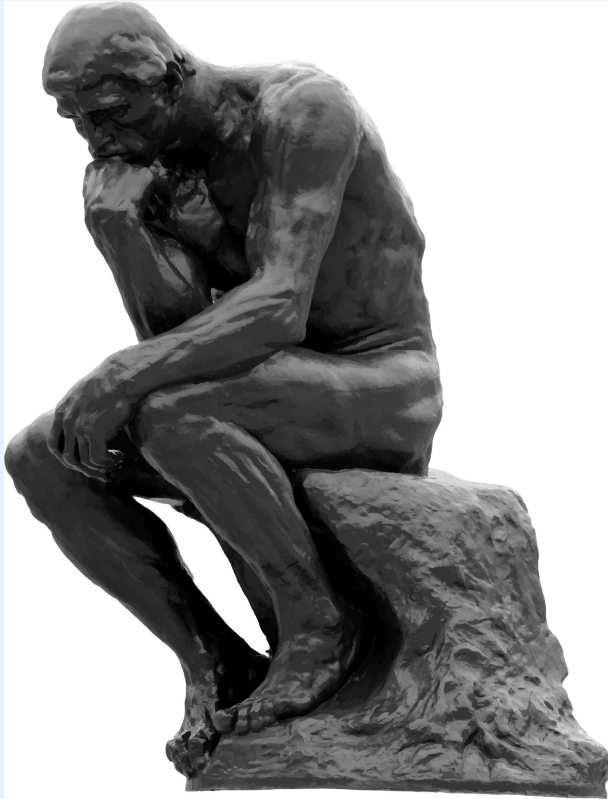

Thursday, June 2, AD 2016

I made a website!

(It's not quite that bad.)

It's called Thinking Bicycle.com

Thinking Bicycle ...*intelligent machine.*

Like so many websites, it's eternally under construction.

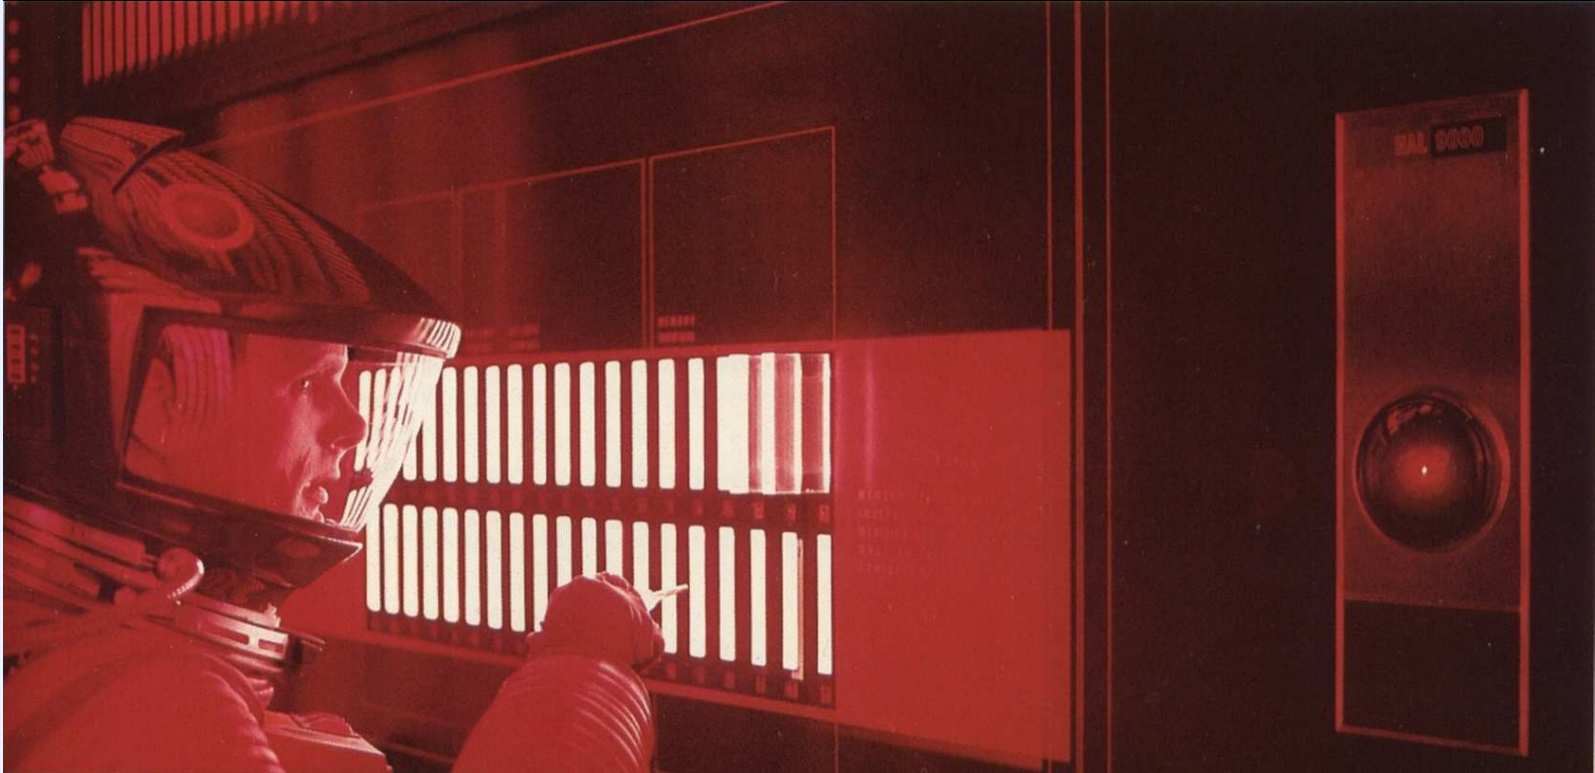

under**construction**

I've always been really interested in AI ...

...Real AI.

If it can't become a murdering Machiavellian psychopath, it's not *real* AI.

I've started from scratch three times with this project, but I think I'm on the right track now.

ACT V.

SCENE I.—*A Room in the Garter Inn.*

Enter FALSTAFF and Mistress QUICKLY.

Falstaff.

 R'YTHEE, no more prattling:—go.
I'll hold: this is the third time;
I hope good luck lies in odd
numbers. Away, go; they say there is
divinity in odd numbers, either in nativity, 5
chance, or death.—Away.

We need a whole lot of human-curated information, all interconnected.

- Links
- Keywords
- Tags, bookmarks, shares
- Forums, chats, messages
- Notes
- ...

We need programmability everywhere.

We need xanalogical transclusions everywhere.

We need lots of real data about everything.

And then we can finally get started on the future of human-computer interaction.

Basic Text Formatting

Bold text: `\b{bold text}`

Italic text: `\it{italic text}`

Commands can nest: `\it{\b{commands can nest}}`

~~Strike through text:~~ `\s{strike through}`

Underlined text: `\u{underlined text}`

Teletype-style text: `\tt{teletype-style text}`

Sub_{scripts}: `sub\sub{scripts}`

Super^{scripts}: `super\sup{scripts}`

Bigger text: `\big{bigger} text`

Smaller text: `\small{smaller} text`
